Big Day Display

Why choose faux flowers?

There are many reasons for opting for faux florals on your big day. Here are just some examples;

No Wilting - Your gorgeous flowers will look fresh all day long.

Not in season?... Not a problem; Flowers can be selected whether they are in season or not giving you a broader choice and allowing you to use your favourite bloom whatever time of year.

Colours; Using faux flowers allows for a wider readily-available variety of colours, so you can choose the perfect palette for your day.

Peace of mind; You can have them delivered well in advance of your wedding not "on the day" as with most fresh flowers.

Keepsake; You can keep them forever as a beautiful memory of your wedding day. Traditionally of course bouquets are thrown at a wedding so we would advise if you do wish to do this to purchase one of our smaller bouquets specifically for this purpose allowing you to save your Bridal Bouquet.

Destination Wedding? Take your flowers with you. These items can be very expensive in Resort Holiday Packages... This way you get exactly what you wish for with no hidden cost.

Unlike the majority of our competitors we completely wrap our bouquet stems. Why do we do this?... Because faux flowers are on wire stems which due to their nature the tips can be sharp/rough and sometimes unsightly. By covering the stems we can prevent any catching/scratching of materials. In our opinion it is better to be safe.
